Sal - Veya -

~~~~~  
Sal-Veya, formerly  
of Moonglow Town  
Council, was head of  
the Corps of Mages  
(the militant wing of  
the mages).

Was in charge of  
recruiting, organising  
and indeed training  
newcomers.

In recent months the  
lack of action in the  
upper echelons of  
MTC has proven  
frustrating and Sal  
has left.

Several years before  
his post at MTC, he  
applied to the Order of  
the Ebonskull, and  
requested to be trained  
in Necromancy.

He was unsuccessful  
in his application.

His interest in the  
black arts often  
caused problems in  
Moonglow, and it  
seems now that he  
returns to the fold.

He claims to have  
given up his light -  
bringing ways and

wants to join OES as  
he first wished.

His mental stability is  
not that high, and he  
has been seen  
speaking in a strange  
tongue, named  
"dewdish" by some.

an argument with  
Nexus Graveheart  
has fired up  
several times in  
the past, and may  
do so again.  
This is all  
that is known at  
present.
